Live Webinar: December 20, 2018 from 1:00 p.m. to 2:30 p.m. (CST)

1:00 – 1:05 pm	Welcome, Introductions, and Review of Agenda by Midwest Regional CAC
1:05 – 2:15 pm	EduNet Webinar Presentation
2:15 – 2:30 pm	Questions, Wrap-up, Closing Remarks, & Evaluation

Course Description:

The Internet of Things refers to physical devices having the capability to connect to the Internet to send and receive signals and data. As technology evolves into every facet of our daily lives, it is important that MDT's develop an understanding of what devices are IoT capable and potentially what information may be recoverable to assist in investigations, prosecutions or adjudications. Participants will learn what devices are currently IoT, emerging technology for IoT, and ways to detect what may be contained on IoT devices. Issues of search and seizure for IoT devices will also be discussed.

Learning Objectives:

1. Learn what the phrase Internet of Everything means.
2. Learn what the phrase Internet of Things means.
3. Learn to identify devices that may be IoT compatible and what evidence they may store.
4. Understanding legal requirements to get data from IoT devices.
