Midwest Regional National Peer Review

This project was supported by Grant #2019-CI-FX-K004 awarded by the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, U.S. Department of Justice.

- The Midwest Regional CAC National Peer Review program offers the following types of peer review:
- Forensic Interview Peer Review (28 different calls, different days and times)
- Spanish Speaking Forensic Interview Peer Review (2 different calls monthly)
- Individuals with Disabilities Forensic Interview Peer Review (quarterly)
- Medical Peer Review (4 different calls each month)
- SANE Peer Review (2 different calls each month)

Core Communities

- CACs are assigned to Core Communities so that they are with the same group each month. The benefits include getting to know your peers, sense of community in sharing feedback, balanced calls. Sites are asked to “opt out” if they are not able to attend their regularly scheduled peer review call rather than register each month.

Equipment Requirements

- It's easy to participate! All you need is a computer with high-speed internet access with either a built-in microphone, camera and speakers or attached speakers and Webcam.

Individual CAC Responsibilities

- Commit to participate each month with your core community on your scheduled call
- Communicate if you are unable to be on your scheduled call
- Be prepared to present a case during your scheduled presentation time
- Be present on peer review call if your case is being shared so that you can answer questions, provide history and receive feedback

It's My Site's Turn to Present....

Presenting can be stressful if you are not prepared. To be ready on your presentation day, please make sure that you:

- Have chosen a case to share in advance
 - ✦ For medical PR: Please save case history and images in a PowerPoint format so that all of your information is in one document.
 - ✦ For Forensic Interview/Spanish Speaking Forensic Interview/Individuals with Disabilities Forensic Interview: Save your interview as a computer file in one of the following formats: avi, mp4, wmv or mov. Some sites will need to share their interviews via a media player; if this is the case, just let us know!

Preparing for Presentation Day

All sites
presenting
interviews for
forensic
interview peer
reviews are
required to
schedule a
practice call

- Practice calls help to ensure the video and audio quality are sufficient for the actual peer review. This also serves as a trial run to make sure you feel comfortable loading and playing your interview and to answer any questions.

What Kind of Case Should I Choose?

For Forensic Interview Peer Review/ Spanish Speaking Forensic Interview Peer Review, or Interviewing Individuals with Disabilities Forensic Interview Peer Review....

- Choose a case that you want constructive feedback on.
- Choose a closed case if at all possible.
- Don't choose one of your best interviews as you already know you did well on that, choose one where you would like feedback on how to do things differently or suggestions on how to handle a certain age group, etc.

How do I join?

Each month you will receive an email with your agenda and link to join the peer review call.

Hi everyone:

Please find attached the agenda, forensic interview tool and forensic interview protocol for your core community peer review call.
